Full Stack Developer | Software Engineer

Summary

Full-Stack Developer skilled in designing, developing, and deploying scalable web applications using React.js, Node.js, Express.js, and PostgreSQL. Strong foundation in frontend and backend development, RESTful API design, cloud deployment, and performance optimization. Passionate about writing clean, maintainable code and delivering impactful software solutions.

Technical Skills

Frontend	HTML5, CSS3, JavaScript (ES6+), React.js, Redux, Context API, Tailwind CSS, TypeScript(Basic)
Backend	Node.js, Express.js, RESTful APIs, WebSocket, FastAPI
Database	PostgreSQL, MySQL, Firebase
DevOps / Cloud	AWS, Docker, CI/CD, Git, GitHub, Vercel, Render
Tools	VS Code, Postman, Swagger, Jira
Practices	Agile/Scrum, SDLC, Version Control, Responsive Design, Clean Architecture

Experience

Software Engineer Intern

Posit Source Technology Pvt Ltd, Pune

Jan 2025 – Jun 2025

- Built and deployed a centralized training and project management platform using React.js, Redux, and Node.js.
- Implemented secure authentication with Clerk and token-based authorization for user access management.
- Developed RESTful APIs with optimized data handling, security headers, and rate limiting.
- Integrated Git repository modules with OAuth-based authentication for project collaboration.
- Enhanced system performance and onboarding efficiency through modular architecture and optimized state management.

Frontend Developer Intern

Corkers Innovation Pvt Ltd, Pune

Jun 2024 – Jan 2025

- Contributed to building a scalable food ordering application using React.js and Node.js.
- Designed and implemented reusable UI components with Tailwind CSS for improved maintainability.
- Collaborated with back-end developers to integrate APIs, manage states, and handle real-time updates.
- Improved UI performance and responsiveness across devices, boosting customer engagement by 25%.
- Followed Agile methodology with sprint reviews and Jira-based task tracking.

Projects

Agriculture Business Platform — React, Redux, Node.js, Express.js, PostgreSQL, Ant Design

[Link](#)

- Developed and deployed a full-stack platform for farmers and distributors to manage agriculture products and sales.
- Implemented authentication, billing, inventory tracking, and GST management with PostgreSQL ORM schema.
- Set up CI/CD pipelines via GitHub and deployed on Vercel for continuous integration and version control.
- Achieved 30% faster response time through optimized database queries and caching mechanisms.

Portfolio Website — React.js, Tailwind CSS, Vercel

[Link](#)

- Designed and deployed a personal portfolio that showcases projects, technical blogs, and development work.
- Implemented responsive UI and SEO-friendly structure to enhance discoverability and user experience.

Education

MSc Software Engineering — MGM College of Computer Science and IT, Nanded

Aug 2023 – Jul 2025

Aggregate: 61 Percent

MSc Bioinformatics — Swami Ramanand Teerth Marathwada University, Nanded

Oct 2020 – Aug 2022

Aggregate: 80 Percent

BSc Bioinformatics — Swami Ramanand Teerth Marathwada University, Nanded

Jun 2017 – Oct 2020

Aggregate: 67 Percent
